

Dear Mark,

Please find my comments following my recent course of treatment.

After suffering neck pain for over 9 months and having four visits to "rheumatic consultants" overseas with no improvement, upon my return to the UK I sought the help of Mark Knowles of Riverwood Chiropractic Ltd. I had several visits to his surgery over a period of two months and now am completely cured of the problem.

Throughout the treatment Mark explained very clearly what he was doing and what I needed to do to correct the problem.

I would strongly recommend a visit to Riverwood Chiropractic for anyone who is suffering from constant muscular pain in any part of the body.

Mark thank you very much for your very professional attention.

Kind regards,
Barry
