

Mrs Shaw

I have had neck and back problems for many years and after trying many different forms of pain relief which were not working mark was recommended to me.

On my first visit Mark listened to all my symptoms then proceeded with the treatment after which I immediately had some relief from my pain. I had a further five sessions with Mark and am now pain free and able to carry on with my life.

I would recommend Mark as he is very professional with an excellent knowledge of what is causing your problems.
